Formerly Pandit Deendayal Petroleum University (PDPU)

UGC RECOGNIZED

SoET
SCHOOL OF
ENERGY
TECHNOLOGY

FOURTH EDITION OF
**International Conference on
Petroleum, Hydrogen & Decarbonization (ICPHD 2026)**
Driving Innovation, Enabling Transition and Shaping the Energy Future

December 11-13, 2026 (Friday-Sunday) || PDEU, Gandhinagar

ORGANIZED BY

**Departments of Petroleum Engineering, Department of Chemistry &
Chemical Engineering, Pandit Deendayal Energy University**

IN ASSOCIATION WITH

**CHIEF GUEST
(INAUGURAL)
To be
announced**

**GUEST OF
HONOR
To be
announced**

SPONSORS

● ONGC

● GAIL (India)

● HPCL

● Sun Petrochemicals

MEDIA PARTNERS

● Media Partner 1

● Media Partner 2

Registration Starts: August 20th, 2026

Sponsorship & Exhibition Opportunities Open

About ICPHD 2026

Welcome to the 4th Edition of the International Conference on Petroleum, Hydrogen, and Decarbonization (ICPHD), organized by the Department of Petroleum Engineering and the Department of Chemical Engineering, Pandit Deendayal Energy University (PDEU), Gandhinagar. The conference brings together leading experts, researchers, academicians, industry professionals, and young researchers to explore cutting-edge developments in petroleum, hydrogen, and decarbonization.

As we navigate an era marked by the urgent need for sustainable energy solutions, ICPHD focuses on the advances, challenges, and opportunities shaping the future of the energy sector, aiming to highlight recent innovations and address emerging challenges through technical presentations, panel sessions, and knowledge sharing.

The conference provides a platform for researchers, industry professionals, academicians, and students to exchange ideas, showcase their work, and foster meaningful collaborations toward a future powered by advanced technologies and a strong commitment to sustainability.

About the Departments

The conference is jointly organized by the Department of Petroleum Engineering and the Department of Chemical Engineering, Pandit Deendayal Energy University. The two departments represent complementary domains that play a vital role in the energy and process industries, with a shared focus on innovation, research, technology development, and sustainable solutions.

The Department of Petroleum Engineering focuses on the exploration, production, processing, and management of petroleum resources while addressing the evolving challenges of the energy sector, encouraging students and researchers to develop innovative solutions across the upstream and broader energy industries.

The Department of Chemical Engineering and Che combines fundamental sciences and engineering principles to address challenges across chemical processing, energy, petroleum refining, materials, and other industrial applications, promoting interdisciplinary research, industry collaboration, and sustainable development.

Together, the two departments provide a strong interdisciplinary platform for ICPHD, bringing together expertise from petroleum, chemical, hydrogen, energy, and decarbonization domains to facilitate the exchange of knowledge and encourage technological advancements for a sustainable energy future.

About the Institute

Pandit Deendayal Energy University (PDEU), located in Gandhinagar, Gujarat, is a leading institution dedicated to education, research, innovation, and human resource development in the energy sector, bringing together engineering, science, technology, management, and other allied disciplines.

With its strong focus on energy education and research, PDEU aims to develop skilled professionals and researchers capable of addressing the evolving challenges of the global energy landscape, promoting innovation, interdisciplinary collaboration, industry interaction, and research-driven learning.

PDEU's academic and research ecosystem is supported by its schools, departments, laboratories, industry collaborations, and academic partnerships, providing an appropriate platform for a conference dedicated to petroleum, hydrogen, and decarbonization.

Through ICPHD, PDEU continues its commitment to bringing together academia, industry, researchers, and students to exchange knowledge, foster collaboration, and explore innovative pathways towards a cleaner, sustainable, and resilient energy future.

Conference Highlights

**Panel Discussions
by Industry Experts &
Academicians**

Keynote Sessions

**Paper & Poster
Presentations**

**Best Paper & Best
Poster Presentation
Awards**

**Exhibition,
Networking &
Branding**

Important Dates

20 Aug 2026	Abstract Submission Starts
15 Oct 2026	Abstract Submission Closes (extended)
15 Oct 2026	Notification of Acceptance/Rejection (on or before, extended)
20 Nov 2026	Final Registration Deadline for Authors/Delegates
To Be Announced	Pre-conference Workshop
11 Dec 2026	Inauguration
13 Dec 2026	Valedictory
To Be Announced	Full Paper Submission (on call basis)

Conference Theme

Decarbonisation and Global Sustainability

- Decarbonisation and Climate Technologies
- Carbon Capture, Storage, and Utilisation
- Methane Management and Mitigation
- Storage Resource Management
- Electrification and Decarbonisation of Existing Operations
- Low-Carbon Petroleum Products: Advances and Innovations

Hydrogen: Production, Storage, Transportation and Utilization

- Hydrogen Production
- Hydrogen Storage
- Hydrogen Transportation
- Hydrogen Utilization
- Hydrogen Policy, Economics and Safety

Petroleum Geoscience

- Petroleum Geochemistry and Geology
- Sedimentology and Stratigraphy
- Structural Geology and Basin Analysis
- Core Sampling & Characterisation

Geophysics and Geotechnical Engineering

- Seismic Exploration and Interpretation
- Gravity and Magnetics
- Borehole Geophysics and Logging Techniques
- Near Surface Geophysics
- Rock Mechanics
- Remote Sensing and GIS in Geosciences

Efficient Drilling and Completion Technologies

- Drilling Technology
- Wells Construction and Completion Technology
- Cementing and Drilling Fluids
- HPHT and Deep-Water drilling

Reservoir Engineering and Technologies

- Reservoir Characterisation and Modelling
- Reservoir Simulation
- Reservoir Modelling/ Surveillance Technology
- Oil and Gas Field Development
- Flow through Porous Media
- Rock-fluid Interactions

Petroleum Production Operations

- Integrated Operations
- Artificial Lift
- High CO2 and Contaminated Fields
- Production Maintenance and Chemistry
- Subsea Production and Processing System
- Water Shut-off operations
- Sustainable Produced Water Management
- Workover & Well Stimulations

Flow Assurance

- Fluid Characterization and Transport
- CO2 transport
- High CO2 and Contaminated Fields
- Asphaltenes and Wax Mitigation
- Crude Oil Emulsification/Demulsification
- Scale Mitigation
- Corrosion Management

Improved or Enhanced Oil Recovery (IOR/EOR)

- Thermal EOR
- Chemical EOR
- Gas Injection Techniques
- Microbial EOR
- Emerging Technologies in EOR

Unconventional Energy Resources

- CBM and Shale
- Gas Hydrates
- Geothermal Energy Resources and Utilization
- Natural Hydrogen
- Fracturing
- Emerging Technologies

Digitalization and Optimization of Oil & Gas Field operations

- Data Science/Big Data
- Automation and Digital Operation
- Remote Operations
- AI and Machine Learning
- Smart Field Technologies
- Digital Operations/Oilfields
- Computational Fluid dynamics

Health, Safety, Environment (HSE) and Social Responsibility

- Operational HSE
- Minimising Environmental Discharge
- Environmental Stewardship and Sustainability
- Emergency Response and Recovery
- Sensors and Measurements for Environmental Hazards
- Digitalisation in HSE - Remote Inspection, Automation

Project Management, Economics, and Contracting

- Project Economics
- Field Development Planning, Strategies, and Methodologies
- EPC Project Management
- Governance, Policy and Regulations

Energy Integration and Transition

- Global Energy Transition Outlook and Future
- Renewable Energy Integration in O&G
- Policy Regulation and Market Trends
- Investment, Economics, and Workforce Development

Registration & Abstract Submission

Registration

- Delegates are advised to pay first and then complete the registration process.
- Payment via NEFT/SWIFT/Wire Transfer or UPI (Indian participants only).
- Registration form must be completed after payment for confirmation.
- Certificates issued only to registered participants.

Click here for Registration

Category	Amount
Industrial	₹15,000 – 17,700
Start-up Companies / R&D Labs	₹15,000 – 17,700
Academician	₹8,000 – 9,440
Post-Doc, PhD & PG Students	₹8,000 – 9,440
UG Students	₹2,600 – 2,960

Abstract Submission

- Title: Times New Roman, 14pt, Bold
- Author: Times New Roman, 12pt, Bold
- Affiliations: Times New Roman, 11pt, Bold Italic
- Abstract: Times New Roman, 12pt, 300–400 words
- Keywords: Times New Roman, 11pt, Italic, 3–5 keywords
- Format: MS Word-compatible file, A4 Portrait, 1.5 spacing
- Selected abstracts may be offered publication in a reputed journal/proceedings.

Bank Details

Venue

Pandit Deendayal Energy University Campus

Knowledge Corridor, Raysan Village, PDPU Rd, Gandhinagar, Raysan, Gujarat 382426

ICPHD 2026 will be held at Pandit Deendayal Energy University (PDEU), Gandhinagar, Gujarat, India. Located in Raisan, on the outskirts of Gandhinagar, the university is well connected to Ahmedabad and other major cities by road, rail, and air, making it an ideal venue for national and international delegates.
